Report on POSTER PRESENTATION CONTEST MAY 2020 organized by DSCE ISE ACM Student chapter

DSCE ISE ACM Student chapter of Department of Information Science and Engineering, Dayananda Sagar college of Engineering hosted a poster presentation contest through online mode on 4th may 2020. The contest was open to all the ACM chapter members of Information science department

The event was started through zoom online mode. ACM Student Chapter faculty coordinators **Dr. Rajeshwari J** and **Prof. Shalini K.B** had taken the initiative to judge the team and it started around 5.00 PM in the evening.

A total of 7 teams (14 students) participated in the event. Each team consisted of 2 students and were allowed to submit only 1 idea per team. The participants were allotted a time slot of 10 minutes each to explain their work and to present the poster to the judge.

Several students who worked on the posters received appreciation for their works from the judges and were motivated to continue working on the project to convert “**Idea**” into a “**Product**”. Some teams also developed the product prior to the contest and presented them along with the poster and impressed the judges. This contest focused more on getting ideas for “**Industry Ready**” projects from the students and helps them grow further. We as a part of ACM ISE Student Chapter are lucky to be given such an opportunity by the teachers and the Department.
