Report on Inauguration of DSCE ISE ACM student chapter

A student Chapter of the international professional society “Association for Computing Machinery” (ACM) has been inaugurated on 15th October 2018. Dr. Ram P Rustagi professor, Dept of CSE, KSIT, has graced the event as the Chief Guest.

Dr. Ram P Rustagi delivered a keynote address on the “Power of Studying Computing!” following the inaugural of the Student Chapter. He suggested that students of the current generation cannot simply aim to have high aggregate percentage of CGPA but must be observant of social problems and try solving them through computing. The students should participate in project works actively and also be members of two or more international associations.

Dr C P S Praksha, Principal, said that student chapters of such professional societies help students and faculty improve their awareness about technological advancements in their domains. He expressed his happiness that students of the Institute do not limit themselves to classroom learning but that they enthusiastically participate in various competitions and hackathons. He added that such proactive participation enriches the résumés and enhances the employability of students

Report on Poster presentation of DSCE ISE ACM student chapter

DSCE ISE ACM Student chapter of Department of Information Science and Engineering, Dayananda Sagar college of Engineering hosted a poster presentation contest in the IBM COE Lab on 12th February, 2019. The contest was open to all the ACM chapter members of Information science department

The event was inaugurated by Judge **Professor. Venketsh patil** And **Dr. K N Rama Mohan Babu** ,Head of the Information Science and engineering department and the ACM Student Chapter faculty coordinators **Dr. Rajeshwari J** and **Prof. Shalini K.B.**

A total of 10 teams (20 students) participated in the event. Each team consisted of 2 students and were allowed to submit only 1 idea per team. The participants were allotted a time slot of 10 minutes each to explain their work and to present the poster to the judge.

WINNERS

Chirag Chopra

Simran Bhurat

RUNNER UP

Kaustumbh Jaiswal

Dhairya Patel

Report on Technical talk of DSCE ISE ACM student chapter

On 12th June, the DSCE ISE ACM Student chapter under organized an informative talk session which was delivered by Prof. Sharma Chakravarthi. The event began with the lighting of lamp followed by Dr. SUMA V Professor Dept of ISE, addressing the gathering.

Prof. Sharma Chakravarthy who is a Professor in the Department of Computer Science and Engineering at the University of Texas, then came forth and started with his talk about the upcoming technologies in the field of information technology. Image processing has been researched for several decades. Proceeding which he went on to elaborate the recent times emphasis on video stream analysis for situation monitoring due to the ubiquitous deployment of video cameras and unmanned aerial vehicles for security and other applications.

Report on Workshop of NETWORK INTELLIGENCE organized by DSCE ISE ACM Student chapter

DAY1

A DSCE ISE ACM student chapter organized 5 days workshop **on network intelligence** from 27th august to 31st august 2019. Prof.Gururaj H L Assistant professor, Dept of CSE, VVCE, has graced the event as the Chief Guest.

Prof.Gururaj H L has delivered the topic about Talk by gururaj DSP distinguished speakers program talked briefly about it Infrastructure and less network , BTS base trans network , 1G network with limited call time and only voice call 2G with voice and sms talked about the cons like large messages had to split and delivered . 2.75 is where internet was introduced also called EDGE 3G where the bandwidth was increased similarly till 3.5,3.75 till 4G and architecture was maintained ssme from 2 to 4G.

DAY-2: Industrial visit on 28th Aug to L & T InfoTech Company

Speaker 1 –

Brijesh interacted with all the students making them comfortable initially. He spoke about the real-life scenarios, the various changes over the generations in technology and lifestyle.

Speaker 2 –

Jyothi was very experienced in the IT field. He started off with the emerging technologies i.e., cloud computing, artificial intelligence, Internet of things, Automation, 5G and many more. He basically let the students know what the industry expects from freshers

Speaker 3 –

Bala spoke about foundations. His session was more an interactive one. He asked a couple of questions to all the students who's answers were connected to arrive into the depth of networks.

Speaker 4-

Amogh lead us into the world of automation. Without getting into greater depth, he touched upon the different fields where automation was put to use. It wasn't something that was started off recently.

Day-3 and Day-4 : Network Security and Ethical Hacking

The Day 3 And 4 of the Network Intelligence Workshop laid focus on the much needed network security and awareness of cyber crimes. The day began with welcoming the guest speaker Mr. Mahesh who is a professor at Christ University, Bangalore and is currently pursuing his PhD in the field of computer networks

Day-5 : Session 1: No SQL Distributed Database: Cassandra in Big data applications.

The Day of the Network Intelligence Workshop laid focus on the much needed. No SQL Distributed Database: Cassandra in Big data applications .The day began with welcoming the guest speaker Mr. Rajiv who is a Vice President at J P Morgan, Bangalore.

The respected guest speaker made an effort to keep us hooked to the session by relating each part of his teaching with our day to day activities how Cassandra helps to work in distributed database management system designed for handling a high volume of structured data across commodity server and how Cassandra handles the huge amount of data with its distributed architecture with hands on.
