

ACM REPORT(2022-23)

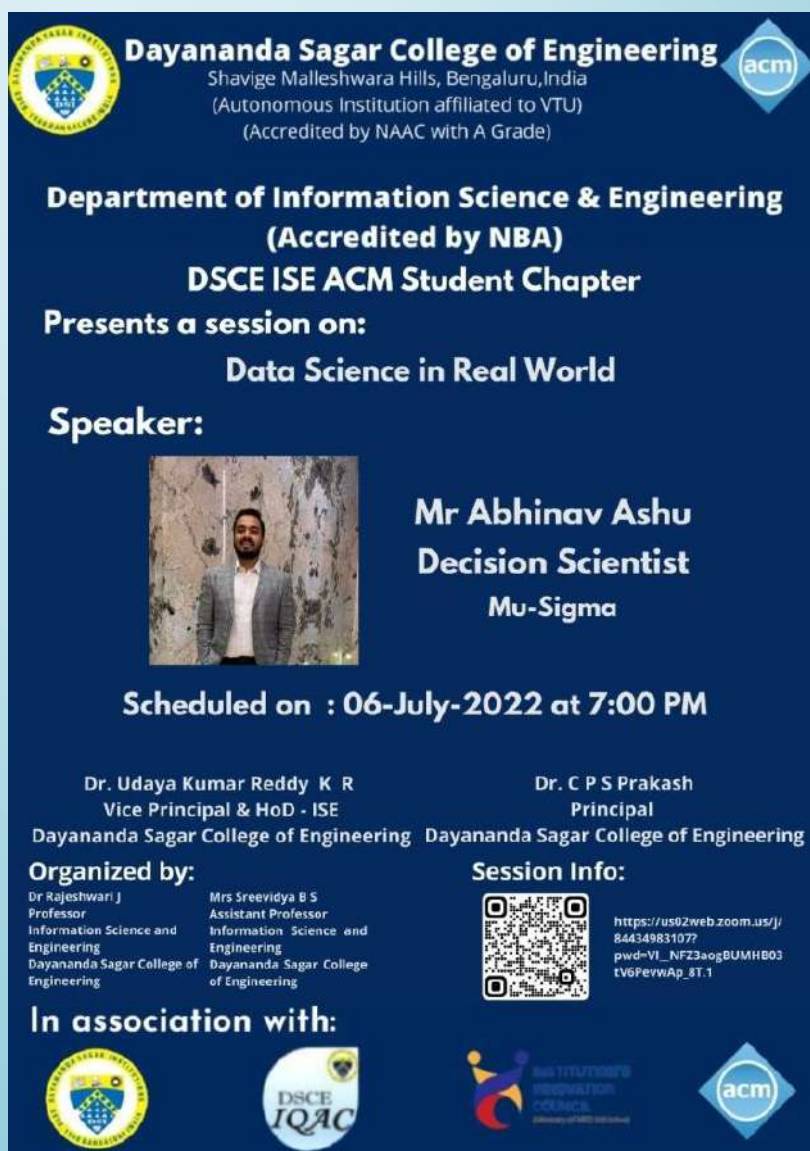

DSCE ISE ACM Student Chapter

DSCE ISE ACM STUDENT CHAPTER

Session on “Data Science in Real World”

2022 Odd Semester	ACM Coordinators :Dr.Rajeshwari J
DATE:06-07-2022	Mrs. Sreevidya B S

REPORT

Dayananda Sagar College of Engineering
Shavige Malleshwara Hills, Bengaluru, India
(Autonomous Institution affiliated to VTU)
(Accredited by NAAC with A Grade)

Department of Information Science & Engineering
(Accredited by NBA)
DSCE ISE ACM Student Chapter
Presents a session on:
Data Science in Real World

Speaker:

Mr Abhinav Ashu
Decision Scientist
Mu-Sigma

Scheduled on : 06-July-2022 at 7:00 PM

Dr. Udaya Kumar Reddy K R
Vice Principal & HoD - ISE
Dayananda Sagar College of Engineering

Dr. C P S Prakash
Principal
Dayananda Sagar College of Engineering

Organized by:
Dr Rajeshwari J
Professor
Information Science and Engineering
Dayananda Sagar College of Engineering

Mrs Sreevidya B S
Assistant Professor
Information Science and Engineering
Dayananda Sagar College of Engineering

Session Info:

In association with:

Objective of Event: To give a glimpse of Basics of Data Science, job roles based on Data Science in Industries, Tools used in Data Science and its real world applications

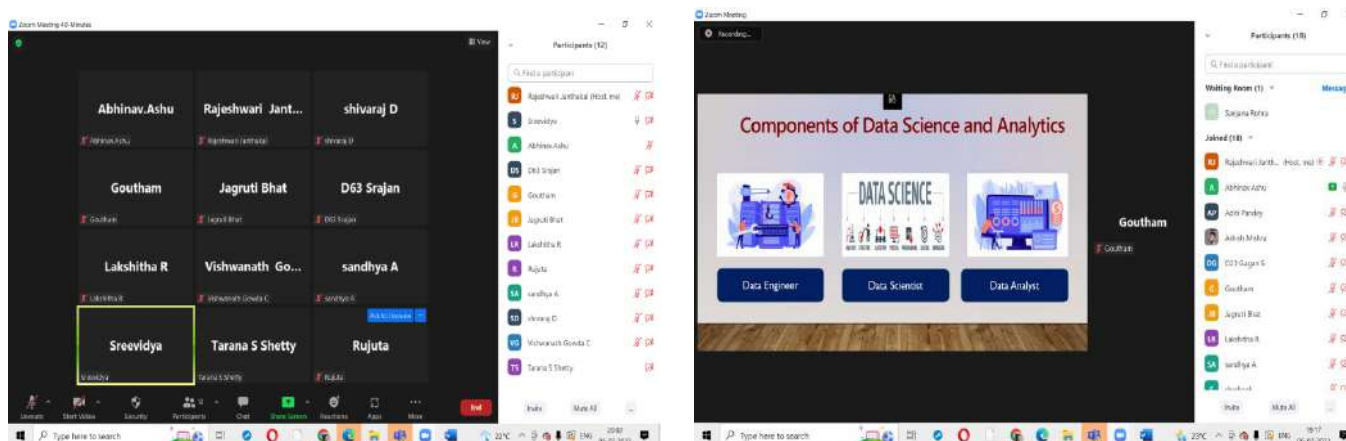

Summary of the Event: The webinar on Data Science in Real World was conducted on 6th July 2022 at 7:00 PM for the students registered under DSCE ISE ACM Student chapter. The speaker of the webinar was Mr. Abhinav Ashu, Decision Scientist in Mu-Sigma, Bangalore. Mr. Abhinav Ashu had given overall view on Data Engineer, Data Scientist, Data Analyst. The key area narrated in webinar was the tools used by the Data Engineers and its importance, real life applications of Data Science. The target audiences were ACM members for this webinar.

Dr.Rajeshwari J, Professor Dept of ISE, introduced speaker about his achievements and welcomed the speaker Mr. Abhinav Ashu, Dr. Udaya Kumar Reddy, Vice principal and HOD-ISE and students to the webinar.

Speaker Mr. Abhinav Ashu briefed on Data Science, components of Data Science, Responsibilities of Data Engineers, Tools used by Data Engineers and Real-Life Applications of Data Science.

Mrs. Sreevidya B S, Assistant Professor, Department of ISE concluded webinar by thanking speaker for exploring knowledge on Data Science to students and for dedicating his valuable time for webinar.

Screenshots of Webinar

Responsibilities of Data Engineers

- Data Architects** - They design and manage the source of data external for business insights to build a data engineering architecture with in-depth knowledge of SQL and 20% data on integration and express various parts of the data management system.
- Data Engineers** - Are the ones who need to be proficient in programming languages such as Python and Java. They design, integrate and prepare the data infrastructure adhering to all data management norms.
- Data Engineers** - They focus on representative techniques and the construction of data in a conventional manner. The purpose of data engineer is continuously ensuring data consistency.
- Customer Administrators (CMA)** - They design and maintain database systems to ensure that users can access all function smoothly. They also optimize the speed of business and work against workflow inefficiencies.

Abhinav.Ashu

Tools Used by Data Engineers

Abhinav.Ashu

What's in a data scientist's toolbox?

- Data Visualization** - the presentation of data in a pictorial or graphic format so it can be easily interpreted.
- Machine Learning** - a branch of artificial intelligence based on mathematical algorithms and automation.
- Deep Learning** - An arm of machine learning research that uses data to model complex abstractions.
- Pattern Recognition** - technology that recognizes patterns in data often used interchangeably with machine learning.
- Data Preparation** - the process of converting raw data into another format so it can be more easily consumed.
- Text Analytics** - the process of examining unstructured data to gain key business insights.

Abhinav.Ashu

Real Life Applications of Data Science

- Personalised Advertisements
- Personalized Pricing
- Product Logistics
- Augmented Reality
- Chatbots
- Sports Analytics

SEMINAR

Importance of Domain Name System (DNS) in Computer Networks

Dr YOGEESHA CB
Software Engineer (Quality Analyst) ,
Cisco Systems India Private Limited,
Bangalore

Friday 12 | August | 2022
Starts at : 10 : 00 am

Virtusa COE, ISE Department

Dr. C P S Prakash
Principal
DSCE

Dr. Rajeshwari J
Professor, HOD
Dept. of ISE, DSCE

Mrs. Sreevidya B S,
Assistant Professor
Dept. of ISE, DSCE

Objective of Event: To give an insight of importance of Domain Name System (DNS) in Computer Networks, categories and protocols used in DNS, and DNS Servers

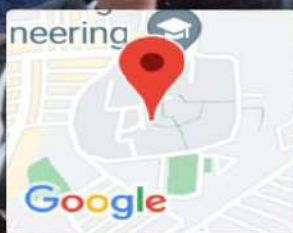

Summary of the Event: The seminar on “Importance of Domain Name System (DNS) in Computer Networks” was conducted on 12th August 2022 at 10:30 AM for students registered under SIG- Data Science and Artificial Intelligence. The speaker of the seminar was Dr. Yogeesha C B, Software Engineer (Quality Analyst), CISCO Systems India Private Limited Bangalore. Dr. Yogeesha C B had given overall view on DNS, categories of DNS, levels in DNS, root server etc.,. The key area narrated in seminar was the architecture of DNS, its functionalities, key features and protocols of DNS, levels of DNS, brief description of root servers, name servers. The target audiences were students registered under SIG- Data Science and Artificial Intelligence for this seminar.

Mrs. Sreevidya B S, Assistant Professor, Dept of ISE, introduced speaker about his achievements and welcomed the speaker Dr. Yogeesha C B, Dr. Rajeshwari J, HOD-ISE and students to the seminar.

Dr. Rajeshwari J, Professor and HOD-ISE concluded seminar by handing over a momentum as a token of appreciation and thanked speaker for exploring knowledge on DNS and its importance to students as well as for dedicating his valuable time for this seminar.
